

## ABB Oy, Plant Automation / Utilities

ABB is a leader in power and automation technologies that enable utility and industry customers to improve performance while lowering environmental impact. ABB Oy, Plant Automation / Utilities offers electrification and automation solutions for hydro, diesel, gas and thermal power plants regardless of the original equipment supplier. Our automation solutions range from complete control systems for turnkey power plants to individual sub-component automation solutions or retrofits. Additionally, ABB offers complete engineering, project management, erection and commissioning.
